

CRIO CABIN
TASTE PRESENTATION

OVER VIEW

Introduction

Capital Refrigeration Services Ltd is a professional refrigeration and cooling solutions company, providing reliable services and technical expertise to businesses across the commercial and industrial sectors.

With a focus on quality, efficiency and customer satisfaction, the company supports clients with refrigeration installation, maintenance, servicing and technical solutions tailored to their individual requirements.

As part of its commitment to delivering high-quality refrigeration solutions, Capital Refrigeration Services Ltd works with Criocabin, a leading manufacturer of professional refrigerated display and food-service equipment for over 35 years.

Criocabin is recognised for its innovative designs, high-quality manufacturing and energy-efficient refrigeration solutions, offering products suitable for supermarkets, butchers, delis, restaurants, cafés and other food-service environments.

Criocabin display refrigeration combines contemporary Italian design with reliable refrigeration performance, providing an attractive and practical solution for professional food retail and hospitality environments.

Designed to maximise product presentation while maintaining consistent temperature control, Criocabin counters and display cases are suited to a wide range of fresh food applications, including delicatessen, meat, fish, bakery, patisserie and prepared foods.

With a strong focus on presentation, functionality and energy efficiency, Criocabin offers flexible configurations and finishes to complement different store concepts and interior designs. High-quality construction, efficient refrigeration systems and thoughtful detailing help deliver dependable day-to-day performance while creating an appealing display for customers.
